

4 Courses

Musculoskeletal Anatomy

Cardiovascular, Respiratory, and Urinary Anatomy

Human Neuroanatomy

Integument, Gastrointestinal, Pelvic, and Endocrine Anatomy

UNIVERSITY OF MICHIGAN

Dec 26, 2024

# MENGYI SHI

has successfully completed the online Specialization

# Anatomy

In this Specialization you will explore human anatomy using a systems approach, and a vast library of multimedia materials, so you may understand the features of different organ systems in relation to the human body's form and function. This Specialization covers the following organ systems: Integumentary System, Musculoskeletal System, Cardiovascular System, Respiratory System, Urinary System, Nervous System, Gastrointestinal System, Reproductive System, Endocrine System. This Specialization takes advantage of a highly visual multimedia library of accurate anatomical models and materials to help you better understand the topics.

Kathleen Alsup, Ph.D.
Teaching Professor in Anatomical Science
University of Michigan Medical School

Glenn Fox, Ph.D.
Teaching Professor in Anatomical Science and Director of Anatomical Donations
University of Michigan Medical School

Kelli Sullivan, Ph.D.
Teaching Professor and Lecturer in Anatomical Sciences
University of Michigan Medical School

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
